

Asteria floor lamp × Special Minds
Specification sheet

Asteria

Floor lamp

The limited edition Asteria floor lamp is a unique collaboration with the Danish socio-economic enterprise, Special Minds. This collection features upcycled and refurbished Asteria floor lamps, rescued from the brink of disposal. Instead of being discarded, these lamps are sent to the Special Minds workshop in the northern part of Jutland, Denmark, where they undergo careful restoration. To celebrate this partnership, each lamp is beautifully re-painted in a limited edition beige colour with brass metal accents, adding a distinctive touch that highlights the collaboration.

The Special Minds x UIMAGE Asteria floor lamp is available in limited quantities, with each piece serving as a testament to the exceptional skill and creativity of the Special Minds team.

All profits from the UIMAGE x Special Minds lamp are donated directly to the Danish Autism Association, an organisation dedicated to raising awareness about autism and advocating for individuals across all age groups, including children, young people, and adults, at both local and national levels.

The Asteria floor lamp is designed with built-in LED technology, featuring a dimmable panel and a soft white diffuser that creates a warm, inviting atmosphere. The elegant brass stem provides a refined vertical axis, and with a simple twist of the top section, you can easily turn the light on and off, combining functionality with sophisticated design.

Please note that, as this is an upcycled and refurbished product, minor imperfections may appear. These beautiful irregularities tell a story and are what make each piece special.

Product type: Floor lamp for indoor use

Designed by: Søren Ravn Christensen
