# Asteria

## Pendant lamp

The limited edition Asteria pendant lamp is a unique collaboration with the Danish socio-economic enterprise, Special Minds. This collection features upcycled and refurbished Asteria pendant lamps, rescued from the brink of disposal. Instead of being discarded, these lamps are sent to the Special Minds workshop in the northern part of Jutland, Denmark, where they undergo careful restoration. To celebrate this partnership, each lamp is beautifully re-painted in a limited edition beige colour with brass metal accents, adding a distinctive touch that highlights the collaboration.

The Special Minds x UIMAGE Asteria pendant lamp is available in limited quantities, with each piece serving as a testament to the exceptional skill and creativity of the Special Minds team.

The Asteria pendant lamp has a tight and sleek appearance born at the crossroads of design, technology, and craftsmanship. It incorporates a built-in LED technology with a shape so minimal that it will never go out of style. The LED panel is dimmable with an external dimmer and has a white diffuser that will ensure soft illumination in the surrounding space.

Please note that, as this is an upcycled and refurbished product, minor imperfections may appear. These beautiful irregularities tell a story and are what make each piece special.

**Product type:** Pendant lamp for indoor use

**Designed by:** Søren Ravn Christensen
